

### **York County Transfer Station and C & D Landfill Operating on Normal Schedule Monday**

Due to hurricane Irma and the expected heavy rain and high winds, the County's contracted household garbage service provider in Columbia will be closing their disposal site on Monday. However, the York County transfer station and C & D landfill plan to operate on a normal schedule.

Should the York County transfer station reach its maximum capacity or any conditions change, the county will notify the public of any schedule modifications or interruption to services. If you have any questions or need additional information, please call 803-628-3200.
